GENOA SERIES

Classic flat bull nose design with a designer notch on the bottom that further defined the beautiful look of any swimming pool. The Genoa Series is available both 12" and 14" depth to fit both new and remodel applications.

ANDORA SERIES

A designer safety grip coping with the designer notch. Safety grip allows an easy grip while in the pool. Available in 12" and 14" Depth.

LA VELLA SERIES

La Vella series offers modern sleek eased edge design. Eased edge design is suitable for today's modern design trends for residential applications. Available in 12" and 14" Depths.

CANTILEVERED SERIES

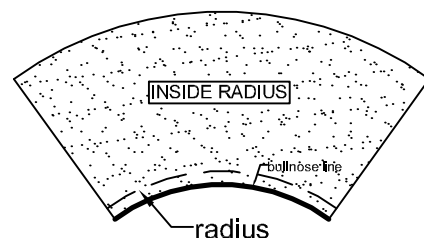

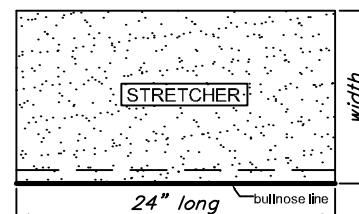

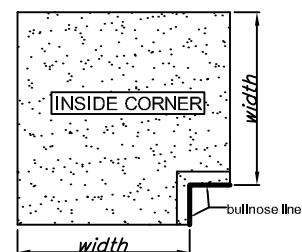

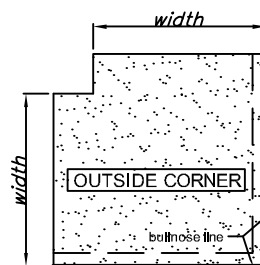

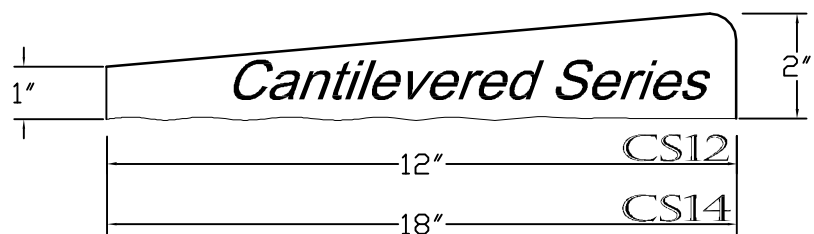

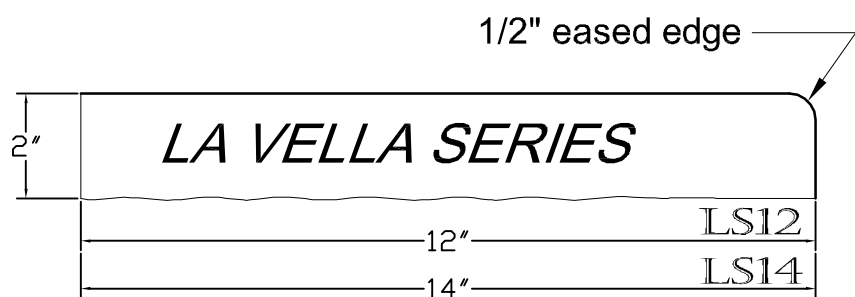

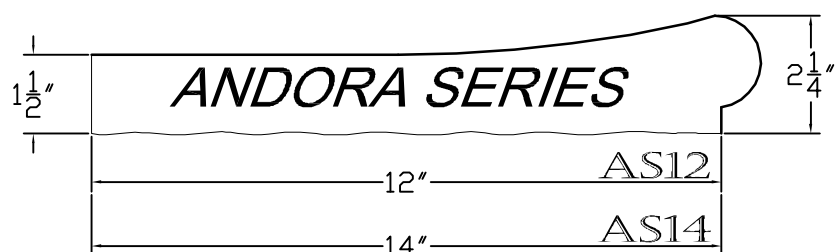

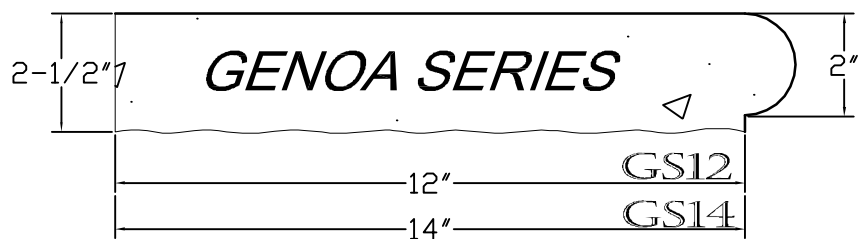

Cantilevered Series coping design is commonly used for commercial applications. This design is thicker at the front and gently slopes backwards. Available in 12" and 18" Depths.

CORDOVA SERIES

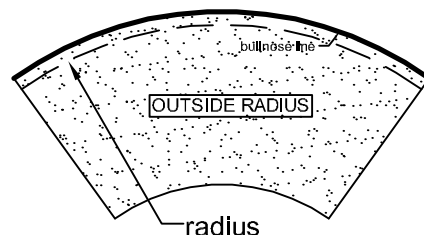

Cordova Series pool coping offers a half round (bullnose) on the top of the piece at front edge and it gently slopes towards the back. This design is also known as the "Finger Grip" design. Cordova Series also has an optional back piece for over-flown pool design applications.
